

## Subsea Applications

- Cable/Pipeline/Umbilical Deburial
- Salvage & UXO Deburial Workscopes
- Rock Dump Removal
- Subsea Structure Deburial and Access
- Drill Cuttings Removal
- Subsea Asset Deburial
- Internal Pile Cleaning

## Technical Details

Flow-rate	1000m <sup>3</sup> /hrs – 18 000 lpm
Hydraulic requirement	90 lpm @ 200 bar
Approx weight in air	3000 kg
Approx weight in water	2500 kg
Max rock size (theoretical)	230 mm
Removal capacity	100 m <sup>3</sup> /hrs – 160 mt/hrs

## Options

- Diver or ROV intervention
- Hot stab integration
- Back flush valve
- Size from (mm) l x w x h 2500 x 1000 x 1600
- Discharge hose
- Jetting facility
